

## Banister Back Side Chair

**Medium**

Maple

### Description

A banister back side chair consisting of a yoke shaped crest rail and a back of four molded banisters. The rear stiles have baluster turned bases under columnar turnings, and large urn shaped finials. A reel turning in the center of the front stretcher is flanked by two bulbous elements. The stretcher ends with conical shaped terminals. The front legs also have small baluster turnings above and below the front stretcher. They end in ball feet. The side and rear stretchers are simply dowel turned.

### Dimensions

41.75 × 18.5 × 15.5 in. (106 × 47 × 39.4 cm)
