

Side Chair

Medium

Walnut, and pine

Description

A side chair that includes a carved five lobe shell with pronounced auricles in the center of the crest rail, which ends in splayed and carved corner ears. The solid vase shaped splat fits into a molded and stepped shoe. Front and side seat rails feature a quarter round molding along their top edges. The side rails are through-tenoned into the rear stiles and secured with two wedges. Cabriole front legs end in claw and ball feet, and the rear legs are rounded and raked back. The slip seat is upholstered in twentieth century pale yellow brocade.
