

Basic Detail Report

Dollhouse

Medium

Pine, maple, poplar, and other woods, silk, cotton, steel, brass, electrical wire, glass

Description

A large and elaborate doll's house, constructed of yellow, white and green painted pine and other woods, of two

stories plus and attic and a small side wing, with a low hipped roof fitted with three dormer windows, a pair of chimneys, and a low wooden railing. The house has a removable front panel, which pulls away to reveal three first floor and three second floor rooms. A staircase allows access from the first floor center room to the second. Rooms are decorated to serve as parlor, kitchen, library, bedrooms, and bathroom. The entire dollhouse is fixed to a sturdy wood base resting atop a large three-drawer storage cabinet, built to hold the doll house's furnishings and accessories.

Dimensions

45 × 71 × 17.5 in. (114.3 × 180.3 × 44.5 cm)
