Walnut

Description

A shaped top with cutout corners is attached to the pedestal by two cleats on its underside that are pinned to a square block at the top of the pillar in such a way as the top can tilt upward for storage. A small brass latch secures the top when in use. The pedestal features a baluster shaped turning over an urn shaped turning. Three curved legs attach to the base of the pedestal.

Dimensions

28.75 × 21.5 × 18.5 in. (73 × 54.6 × 47 cm)
