

Basic Detail Report

Horn Cup

Primary Maker

Daniel Denise

Medium

Cow horn, wood, iron

Description

A round cup constructed from cow horn, with two bands carved around the circumference of the top edge and various carvings around the cup such as a two cross-hatched bowtie-shaped designs, a long-tailed bird, and a profile of a bird in flight. "DANIEL / DENISE" is inscribed on the cup's vertical side. There is also a very faint carving of a flower enclosed in a circle. Along the bottom

circumference are two bands separated by a scalloped ring. Six iron nails secure a wooden bottom to the body of the cup. On the underside is carved the year, "1779."

Dimensions

2 × 3 × 2.5 in. (5.1 × 7.6 × 6.4 cm)
